### *Presidents Corner by Bob Eades*

Well, we are right smack dab in the middle of summer and tuna season. The offshore fishing's been pretty good with Small Yellowfin Tuna, Some quality Dorado, Skip Jack and Yellowtail. This has been mostly paddy hopping and trolling offshore in Mexican waters. There are still some Bluefin being caught but most of that fish is up in American waters or about 150 miles south of the boarder. It's definitely a great time to go fishing.

We have some great speakers lined up for the rest of the year, so make sure you get to all the meetings.

See you at the September 5<sup>th</sup> club meeting

### *Apollo trip report by Bob Eades*

This was our first shared charter, with South Bay Anglers Club taking half the spots on the charter. Although there was a small bit of bantering about who would out fish who, the two groups got along great. The boys from South Bay were a perfect fit for our group.

As the weekend rolled around, everybody on the trip had high expectations. Finally, we get to go down and do some tuna fishing. As our departure neared, I started to keep an eye on both the fish and weather reports. The news was not that great, but not that bad either. It was going to be windy, and the fish reports were all over the place. Counts were up and down, and I just couldn't get a solid feeling for what we were going to do. But, always being the optimistic soul that I am, I loaded up for bear expecting the best.

We arrived at Seaforth Sportfishing and waited for boarding time. As other boats came in, we got that sinking feeling as we noticed that there were very little fish being brought off the boats. Oh well, we were going fishing and anything can happen day to day.

So, for the report.....

It was windy, and rough. A steady 15 to 20 knot wind stayed with us all day Sunday, and most of Monday. We headed south with the wind at our back, to ease the situation. We were looking for kelps and they were few and far between.

When we did find them, very few of them had fish on them. And the ones that did, didn't bite. We never saw on boil, breezer or foamer. Not even any working birds.

I could go on and on with a bunch of details and continued hope, but the truth is. Fishing sucked! The Apollo captain and crew worked hard, but the lack of fish is nothing anyone can do anything about. The whole fleet suffered, and our meager fish count was pretty par for the course this weekend.

Final counts were 9, yes 9 Yellowtail. That's it, 9 Yellowtail. **I took big fish honors with a 29 lb 10 oz fork and Reza Malekzadeh took second with a nice 25 pounder.** There's really not much more to say, so I'll just leave it at that.

***Spitfire trip report by Bob Eades***

All I can say is "What a great Trip it was" From the first stop of the day the Calico and sand Bass fishing was off the hook. It was easy limits of Quality Bass, along with one White Seabass, two Black Seabass (Released) 10 Sheephead and other miscellaneous fishy critters. The Weather was beautiful, and the Spitfire Crew was great as usual. Big fish honors went to a guest with a 15Lb sheepshead, and second place went to Club member **Reza Malekzadeh with a nice 5lb Calico Bass.**

**PRELIMINARY !SWAC 2018 FISHING SCHEDULE**

TRIP	LEAVE	RETURN	BOAT	LOAD	PRICE	LANDING	TRIP DETAILS
9	9/8	9/10	Pacific Dawn	18	\$462	Fishermans	Day & 1/2 meals included
