Presidents Corner by Bob Eades

Well, summer is officially over, and we are starting to experience shorter days and cooler temperatures. About the only thing not really cooling down is the Southern California Fishing. It's still going on strong.

Down south, the tuna fishing is getting better with Yellowfin Tuna starting to show in the 25 to over 35 pound class, and still some nice Bluefin, although the big boy bite has slowed down over the past week. Last year the bluefin bite really took off in early October, through the end of November, so there is still a shot at a trophy out there. The local scene is still showing lots of quality Yellowtail, Bass and other critters both inshore and at the Islands.

We only have 2 meetings left for the year so let's have a good turnout. Speakers for the next 2 meetings are CCA and Hookup Baits.

Speaking of CCA (The Coastal Conservation Association) is having a forum at Okuma in Ontario, next Tuesday September 25th at 6PM. A group of us will be going and everybody is welcome to attend. Okuma – 2310 Locust St. Ontario, CA 91761.

We are always looking for members interested in being a part of the business end of the club. There is a lot more to ISWAC than going fishing. We have committees who put together trips, special events, speakers for our meetings, raffle prizes and more. If you're a club member in good standing, we want to invite you to attend our board meetings and become involved. See me at the meeting if you're interested.

That's it for now, and I hope to see everybody at the next club meeting on Wednesday October 3rd at 7PM sharp.
Bob Eades

Pacific Dawn Sep trip report by Dan Keck

After hearing the fish report from **Danny Lynch** at the club meeting, I was filled with the notion that this trip would be a mixed bag of Big Eye Tuna, Bull Dorado and some nice school sized Yellowfin Tuna with some Skipjack and Bonita in with the mix. And, it was clear that our club members were not interested in chasing after the big Bluefin Tuna. When I arrived at the landing for our departure, it became clear that I was not the only one who had the same glorious vision. It seemed that everyone had their whole arsenal of tackle with them as the carts lined up and filled up with piles of gear. It was reminiscent of a long-range trip that I took this summer. This observation was confirmed as we boarded the boat and all the rod holders quickly filled up with all sizes of gear. The crew quickly realized how much gear we brought and they moved their scrub brushes just to make room for our entire arsenal. Needless to say, we were ready.

On our 1 ½ day trip on the Pacific Dawn we had Pat and Mike as our captains and Hunter, Ben and Dominic on the deck. In the galley, we had a new chef named Heather. She did a great job fixing our meals and snacks on our experience came from working on that the quality of her food matched her were informed that we were heading producing limits of Yellowfin, mixed provided us with bait that was quite we use 20lb. fluorocarbon leader and a 9 am on Sunday morning and set out the our first jig strike. Most of the fish that an occasional Yellowfin. Most of the by a wide-open bite of catch and release caught on the popper and on the colt on kelp paddies when we saw them. Dorado mixed in with the other species.

chef named Heather. She did a great job charter. She said that most of her cooking fishing boats up in Alaska. It became obvious experience. During our safety meeting, we south 110 miles to a zone that had been with Skipjack and Bonito. The bait receiver small and Mike (AKA Dog) suggested that size two hook. We arrived in the zone about trolling gear. It did not take long until we had were coming over the rail were Skipjack with day was the same with a jig strike followed fishing. It was exciting to see a few tuna snipe. We trolled most of the day and stopped Some of the paddies did hold some nice

I was fortunate to catch a nice 14 pound

Dorado on a fly-lined sardine that took the jackpot. Second place was a three-way tie with each of the guys catching 12-pound fish. **Joe Jordan** caught a Skipjack, **Marty Levy** a YFT and **Vince Ramirez** a Dorado. As a whole, we caught limits of Yellowfin (90), 22 Skipjack and 16 Dorado. It is also believed that we released well over a hundred Skipjack and Bonito during our trip. Overall, we had a blast with all the action and a fun trip that was enjoyed by all.

Okay, now for the facts! Due to a mistake made on the boat, the crew did not collect the fee for the Mexican fishing licenses. Therefore, those that did not write down your Mexican fishing license number on the manifest still owe the club an additional \$13. The club at the landing paid this fee, and the club account needs to be reimbursed. Hey, until next time, go have some fun. It's called fishing!

Club Business;

The results of the election of Board Members at the last meeting is as follows; elected for 3 1/2 yrs Dan Keck & Dave Kush, elected for 2 1/2 yrs Marty Levy & Jim Pailla, elected for 1 1/2 yrs Matt Groff & Stu Holmes. The vote turnout for the election was very good and you are all to be congratulated for your continued interest in our club.
